

Egnyte Inks Deal to Join CenturyLink's Software-as-a-Service (SaaS) Catalog

Offering Hybrid File Services to CenturyLink Business Customers

MOUNTAIN VIEW, Calif. - September 23, 2015 - Egnyte, a market leader in Adaptive Enterprise File Services, today announced a new deal with CenturyLink, to make its hybrid file services available to CenturyLink's business customers. Egnyte's hybrid file services are expected to be available in CenturyLink's global Software-as-a-Service (SaaS) solutions catalog by the end of 2015, offering enterprise IT professionals and business users secure file sharing and easy integration with existing storage, third-party applications and devices.

"We are excited to be joining CenturyLink's SaaS catalog as this will allow us to offer our hybrid file services to a substantial installed base, which includes business customers of all sizes," said Isabelle Guis, chief strategy officer at Egnyte. "We look forward to growing our business, attracting new customers who are looking to move to the cloud with confidence, while still being able to leverage their existing investments in on-premises storage and other information technologies."

The Egnyte solution will be integrated with CenturyLink's end-to-end, fully managed IT and cloud solutions, making file service administration cost-effective for organizations.

"CenturyLink is committed to providing our business customers with a robust portfolio of SaaS applications that can help facilitate file-sharing and collaboration success for their organizations," said Thuy Ha, director, product management, business solutions, CenturyLink. "Egnyte's flexible and secure hybrid file services are a strong addition to our growing catalog."

For more information on the offering, and to sign up to be notified when the solution becomes available to CenturyLink customers, please visit <http://www.egnyte.com/centurylink>.

About Egnyte
